BUBBLE FUN

DIY Bubble Solution

Materials:

- 4 cups Warm Water
- ½ Liquid Dish Soap (Dawn If possible)
- ½ Granulated Sugar
- Whisk
- Bowl

Instructions:

1. Pour warm water into bowl.
2. Add sugar and whisk until sugar is dissolved.
3. Stir in gently liquid dish soap.

Tips:

- Wait a couple hours or the next day before using the bubble solution. Resting period typically creates better bubbles.
- Store bubble solution in a tightly sealed container in a cool dark place, use within 1 to 2 weeks.

Bubble Wands

Materials:

- Pipe Cleaners
- Beads (Optional)

Instructions:

1. Make a circle on end of the pipe cleaner, connect the circle by twisting the end of the circle to the stem of pipe cleaner. Try make different shapes with the pipe cleaner or different sizes.
2. Thread beads onto the handle of bubble wand, at the end of the handle turn the pipe cleaner up to secure beads in place

BUBBLE FUN

Bubble Snake

Materials:

- Empty plastic bottle
- Dish Soap
- Shallow container
- Scissors
- Rubber Band or Duct tape
- Food Colouring (Optional)
- Sock

Instructions:

1. Cut the bottom of plastic bottle off. (Adult help may be required)
2. Slide sock over the cut off bottom part of bottles. Fold the top of the sock down, if too long.
3. Secure sock with rubber band or duct tape.
4. Using bubble solution made, pour solution into a shallow container.
5. Dip the sock covered end into the solution and the gently blow through the mouth piece of the bottle.
6. Optional: Use food colouring to add some different coloured drops onto the sock. The bubbles will come out like rainbows.

Tips:

- Take it outside if possible, when blowing bubbles as it can get messy. If not, spread some old newspaper or plastic down to catch the drips and bubbles.
- May be best suited for children over 5. Children under 5 will need adult supervision and may need reminders to blow out the bubble solution rather than breathing/ sucking it in.
